PROJECTS

1. Hanover Insurance   **Client:** The Hanover Insurance Group

The Hanover Insurance Group, Inc., based in **Worcester, Massachusetts**, is one of the oldest continuous businesses in the United States still operating within its original industry. It was the original name of a **property-liability insurance** firm established in 1852, and it remained a publicly traded company under that name until the early 1990s, when it changed its name to **Allmerica Property & Casualty Companies**.

Key Contributions:
- ● Working as a full stack J2EE Developer handling Technologies like HTML5, CSS3, JavaScript, Java, Spring Boot
- Responsible for providing quality deliveries in compliance with sonar cube
- Handling new responsibility as Team Lead, mentoring team members

2. Wells Fargo Retirement (IRT - WIMT)   **Client:** Wells Fargo

Wells Fargo & Company is an American multinational financial services company headquartered in **San Francisco, California**. Wells Fargo is a Banking company which is organized into two core business segments: Wholesale Banking, Wealth & Investment Management. We deal with **Wealth & Investment Management** related Retirement using application gateway i.e., **Customer Channels**.

Key Contributions:
- ● Recognized as a skilful developer on contributing quality code with latest features
- Responsible for providing high quality deliverables in each Sprint
- Works assigned to me are delivered within timelines following Agile Methodologies

3. Zürich – Switzerland (CH)   **Client:** Zurich Financial Services

Zurich Insurance Group Ltd. is Swiss Insurance Company, headquartered in **Zürich, Switzerland**. Zurich is a global insurance company which is organized into three core business segments: General Insurance, Global Life and Farmers. We deal with **General Insurance** related claims using three major applications EDEC, P2000WP, EPNA.

Key Contributions:
- ● Recognized as a resourceful developer and contributing in code enhancement
- Responsible for providing high quality deliverable and documenting the test cases supporting the work delivered
- All the works assigned to me are delivered within timelines

STRENGTHS

- ● Adaptable to work in diversified and interdisciplinary aspects
- ● Strong analytical, communication, interpersonal and presentation skills
- ● Passion for technology and diligent with a quest and zeal to learn new technologies
- ● Desire towards technology driven me to be **Tech Blogger** (www.resolveinmins.com), where I do blog posting on workable solutions on real time enterprise level application problems faced on day-to-day basis, along with new technology updates & understanding new JAVA concepts.
